About the Organizer	Established in 1993, the International Cooperation Center (ICC) of the National		

Development and Reform Commission (NDRC) is a government institution directly subordinate to NDRC. Under the guidance of the thought on socialism with Chinese characteristics for a new era and the correct leadership of the party committee of NDRC, ICC is willing to make efforts to implement the 2030 Agenda for Sustainable Development proposed by the United Nations and to contribute to build the community of shared future for mankind so that the platform of bilateral and multilateral cooperation and sharing China's development achievements can be set up. Based on the function of international cooperation and committed to the high-quality development, we will always adhere to the overall work of the party and the country as well as the key work of NDRC. Presently, ICC, working in with NDRC, has become the major institution which supports a series of international cooperation mechanisms in the construction of Belt and Road Initiative and international capacity cooperation and the new-type comprehensive think tank involving different fields, such as policy research, international cooperation, planning consultation, high-end training, foreign affairs services, etc. ICC is a member of the joint conference on international cooperation of NDRC, as well as a member of the leader group office of promoting the construction of Belt and Road Initiative.

Main functions of ICC:

-- Consultation. ICC deeply participates in the major theoretical research and top-level design for the national development and reform work and provides intellectual support for the work of the Party Central Committee, the State Council and NDRC.

-- Mechanism implementation. ICC is in charge of implementing the multilateral or bilateral negotiation and cooperation mechanism established by NDRC and foreign governments. Also, ICC is making efforts to promote the construction of Belt and Road Initiative and the connectivity of strategy and planning, mechanism, platform and project in international capacity cooperation.

-- Public diplomacy. ICC undertakes the work of organizing international exchanges between governments, institutions and enterprises, formulating cooperation plans, providing policy consulting services, conducting international training and promoting international cooperation.

-- Assisting local governments. ICC provides policy guidance, prepares developing plan and builds cooperation platform for local governments in order to help them develop higher-level open economy in the new-round reform and opening up.

	<p>-- Guiding the orientation of public opinion. On the basis of the advantages of theoretical innovation and international cooperation, ICC properly guides the orientation of public opinion and contributes to the national development and reform as well as opening up by propagating high-quality thoughts with objectivity, scientificity and predictability.</p> <p>-- Providing foreign affairs services. ICC undertakes the foreign affairs work from institutions of NDRC and organizes various types of international conferences to guarantee the key work of NDRC.</p>
Seminar Content	<p>Commissioned by the Ministry of Commerce of the P. R.C., the program is as follow:</p> <p>In today’s world, the degree of interconnection and interdependence among countries is unprecedentedly strengthened. New era China clearly proposed the idea of a Community of Shared Future which aims at promoting the healthy development of economic globalization with a mutual benefit community.</p> <p>Chinese government has actively promoted the construction of Belt & Road Initiative and strengthened the pragmatic cooperation with countries along the passage of Belt & Road Initiative. As an important member of the Belt & Road Office of NDRC, ICC is willing to share China ’ s idea of Belt & Road construction and planning with other countries and to conduct in-depth discussion of economic development policy issues. ICC is willing to enhance the communication and cooperation among countries to promote the economic development. ICC is willing to work together with other countries to create an open, inclusive, and balanced regional economic cooperation framework to contribute to the better promotion of social development. 2018 is the year in which the Belt and Road construction has been built to achieve new and important progress. 67 countries signed cooperation documents with China. As of March 3rd, 2019, the total number of countries and international organizations that signed cooperation documents with China has reached 152. From April 25th to 27th , 2019, the Second Belt and Road Forum for International Cooperation was held in Beijing. All parties have cooperated closely in related fields of interconnection and achieved positive results. A number of multilateral cooperation mechanisms have also been established in some areas of expertise.</p> <p>Through this seminar, we will share the experience and difficulties encountered in the</p>

Seminar
Content

field of urbanization infrastructure planning and development with developing countries, and provide a reference for developing countries to draw a new urbanization infrastructure planning and development blueprint. With the resources and experience available, ICC is willing to help developing countries improve their capacity building in the field of urbanization infrastructure planning and development so as to promote the sustainable development of economic and social development in developing countries. In our schedule, delegations will visit Chengdu and Xian. Chengdu is an important high-tech industrial base, trade logistics center and comprehensive transportation hub of the country, and an important central city in the western region. Xi'an is one of China's seven regional central cities, the Asian Knowledge and Technology Innovation Center, the new Eurasia Continental Bridge China and the largest central city of the Yellow River Basin, the manufacturing base of China's large aircraft, and the largest and most important research and higher education in the central and western regions of China. Education, national defense technology industry and high-tech industrial base. We will offer the opportunity to visit these cities to see their current situation of development and to communicate with local enterprises.
