<p>About the Organizer</p>	<p>Hubei Vocational College of Bio-Technology is the organizer of Foreign-Aid Training Programs determined by the Ministry of Commerce in the 1990s. Over the past 33 years, the college has successfully implemented 104 foreign-aid training projects sponsored by China Ministry of Commerce and 27 bilateral training courses sponsored by IFAD project for Egyptian agricultural officials. 2897 officials and technicians from 128 countries have attended trainings in the college. We have successively organized bilateral training programs for 16 developing countries, including Niger, Namibia, Bangladesh, Tajikistan, Mali, Afghanistan, Uzbekistan, Lesotho, Chad, South Sudan, Kazakhstan, Ethiopia, Cambodia, Pakistan, Burkina Faso, Antigua and Barbuda, and implemented fruitful bilateral communication and cooperation.</p> <p>The college actively serves the BRI Initiative, insisting on the combination of management training and practical technical training from the actual needs of participating countries. Training contents cover ten major fields such as Crop planting, Animal Husbandry, Eco-agriculture, Protected Agriculture, Agricultural Biotechnology, Cotton Processing, Textile Production, Economy and Trade Administration, Legal System Construction and Digital Economy. Training language covers English, French, Russian and Arabic; The participants come from 128 countries on five continents, and more than 80% of them are local government cadres at the department level or above, as well as university teachers and technicians of the National Agricultural Research Institute.</p>	
<p>Project Content</p>	<p>Sponsored by the Ministry of Commerce of People's Republic of China, organized by Hubei Vocational College of Bio-Technology, Seminar on Bioresource Utilization and Ecological Conservation for Developing Countries will be implemented from Nov. 16th to Nov.29th, 2023.</p> <p>The main contents of this training are: Overview of China's national conditions, achievements and inspirations of China's reform and opening up, China's "Belt and Road" Initiative, China's resource recycling management practice, China's environmental management practice, climate change and coping strategies, dual carbon targets, circular economy and ecological agriculture development, agricultural non-point source pollution control, green fertilizer and agricultural chemical input reduction, aquatic living resources protection and utilization, China's ecological civilization construction, China's environmental management practice, etc.</p> <p>Lectures, discussions and field visits will be involved in the training activities of this seminar. We will invite experts and scholars in the field of bioresource utilization and ecological conservation to give lectures and have exchanges with the participants. During the seminar, the school will arrange a field visit to Kunming City in Yunnan Province to help the participants get to know the general situation of China's biological resources utilization, advanced technology and relevant experience in China's biological resources utilization and ecological conservation.</p>
