About the Organizer	<p>Central University of Finance and Economics (hereinafter, CUF), under the direct leadership of Ministry of Education of China (MOE), is one of the national "211" key universities. In 1949, shortly after the founding of the People's Republic of China, the first university of finance and economics was created by the China central government. During more than six decades' development, it has been one of the leaders in business and financial studies. The name of the school when it was first established was the Central Institute of Taxation. In 1996, the Institute was officially renamed the Central University of Finance and Economics in honor of the Ministry of Education. Globally recognized for its academic excellence, CUF today is a vibrant community of scholarship and learning that has inherited the traditions of service to the entire nation and striving for excellence. The university currently is home to more than 1815 full-time faculty and staff, including 359 professors and 474 associate professors. CUF has trained more than 150,000 experts in economics and management who have made, and continue to make, significant contributions to the development of China's economy. All faculty and students are full of spirit, confidence to continue to pursue the excellent and brilliant future.</p>
