- (16) **Policies and financial services in the process of industrial transfer:** to analyze related policies and financial support given by some Chinese enterprises and local governments in the process of industrial transfer.

2.Overview of Lecturers

- (1) Zhuang Ejia: Professor, Distinguished Researcher, Wuhan University;
- (2) Li Weibing: Professor, Huazhong University of Science and Technology;
- (3) Fang Qiyun: Professor, Deputy Director of Economic Development Research Center, Huazhong University of Science and Technology;
- (4) Zhang Yixiang: Professor, China University of Geosciences (Wuhan);
- (5) Zeng Wei: Professor, China University of Geosciences (Wuhan);
- (6) Wang Baoshun: Professor, Zhongnan University of Economics and Law;
- (7) Yang Qinglong: Professor, Zhongnan University of Economics and Law;
- (8) Zhou Yunlan: Professor, Deputy Director of School of Management, South-Central University

	<p>for Nationalities;</p> <p>(9) Yang Xia: Professor, Deputy Director of School of Economics and Management, Hubei University of Technology;</p> <p>(10) Lin Li: Professor, Wuhan Textile University;</p> <p>(11) Duan Dingqiang: Professor, Director of School of Economics, Wuhan Textile University;</p> <p>(12) Li Zhengwang: Professor, Deputy Director of School of Economics, Wuhan Textile University;</p> <p>(13) Tan Yanbao: Professor, Director of School of Foreign Languages, Wuhan Textile University;</p> <p>(14) Wu Jinhong: Professor, Director of School of Management, Wuhan Textile University;</p> <p>(15) Ye Maosheng: Professor, Wuhan Textile University;</p> <p>(16) Jiang Jingjing: Associate Professor, Beijing Union University;</p> <p>(17) Yi Ming: Associate Professor, School of Economics, Huazhong University of Science and Technology;</p> <p>(18) Xie Xiaoqing: Associate Professor, China University of Geosciences (Wuhan);</p> <p>(19) Yang Zichao: Associate Professor, Zhongnan University of Economics and Law;</p> <p>(20) Liu Fangrong: Associate Professor, Deputy Director of School of Foreign Languages, Wuhan Textile University;</p> <p>(21) Chen Lei: Associate Professor, School of Accounting, Wuhan Textile University;</p> <p>(22) Shi Xiaoxia: Associate professor, School of Economics, Wuhan Textile University</p> <p>3. Introduction to Workshops</p> <p>(1) The trainees will introduce their respective country and discuss and exchange about the current status of economic globalization and industrial transfer in their respective country;</p> <p>(2) The trainees will introduce and exchange views on the selection of globalization development strategies, the difficulties in industrial transfer, and the issues to be noted in reconstruction of development strategies in their respective country;</p> <p>(3) The trainees will carry out group discussions, exchanges and sharing on the research results.</p> <p>4. Online exchanges and discussions</p> <p>(1) Introduction to their own unit and work field;</p> <p>(2) Introduction to the development status of industrial transfer as well as the cooperation with China in this field, etc.</p> <p>(3) If the trainees have any specific needs for the Seminar, or have any issue to be communicated with experts, they may send any email to us and we will report to the training experts and reply to trainees.</p>		
Venue (County, City)	Wuhan City, Hubei Province	Visited and Inspected City	Wuhan City

Notes	<ol style="list-style-type: none"> 1. Trainees shall contact the Organizer within five working days before the commence of the Seminar to debug the software and network environment in advance. 2. During the teaching period, trainees are required to comply with the time limit and teaching discipline, and the attendance record will be used as the basis for awarding the training completion certificate. 3. Preparation before Training: trainees are required to enter the cloud classroom 15 minutes in advance to prepare for training. They shall provide personal name in English (personal name-country name). 4. Disciplinary Requirements: During the project implementation, trainees shall strictly abide by the project schedule. 5. Trainees shall prepare relevant materials for thematic workshops according to the schedule, and submit relevant electronic materials as required. The trainee who has completed all live broadcasting and recorded courses and submitted course evaluation form and training report according to the template within the specified time limit will be awarded the certificate of training course completion. 6. Online English continuous interactive interpretation is provided for the courses.
About the Organizer	<p>Wuhan Textile University is one of the first colleges and universities in China for the “Basic Capacity Building Project of Colleges and Universities in Midwestern China”, a university implementing the “Excellent Engineer Education and Training Program” of the Ministry of Education, a university building “Domestic First-class Discipline” in Hubei Province, and one of the Top Ten Famous Fashion Universities in China. It is the only university in China that is named with “textile”, and an institution of higher education boasting the coordinated development of science, engineering, arts, economics, management, art and other disciplines, the distinctive characteristics and the outstanding advantages. The economics major is the University’s first-class major, and the discipline groups of “Advanced Manufacturing and Textile Equipment” and “Big Data and Smart Management” have been included in the key construction of the advantageous and characteristic discipline groups of provincial-governed universities in Hubei Province during the “14th Five-Year Plan” period.</p> <p>At present, Wuhan Textile University has more than 2,000 faculty members and over 1,400 full-time teachers, including more than 800 teachers with senior professional titles and over 800 doctors. The University has independently trained 1 academicians of the Chinese Academy of Engineering, 1 academicians of the Russian Academy of Natural Sciences, and there are 7 domestic and foreign academicians who have been working in the University for a long time as well as over 10 national-level talents and over 200 provincial-level talents.</p> <p>Wuhan Textile University implements the action plan for improvement of scientific and technological innovation capabilities, cultivates major scientific research achievements, attaches great importance to technological innovation, accelerates transformation of achievements, and constantly improves scientific and technological competitiveness. A number of its scientific research achievements have reached international and domestic advanced levels, and its researches in textile, machinery manufacturing, economics, management, etc. are in the leading position. Wuhan Textile University is willing to give full play to its advantages, share the latest research results in the field of economic globalization and intelligent manufacturing with relevant developing countries, and thus jointly promote and improve the technology and trade in the field of economic globalization and intelligent manufacturing.</p>

	<p>Affiliated to the International Exchange and Cooperation Office, the Foreign Aid Project Management Office of Wuhan Textile University, formerly known as Hubei China-Europe International Vocational Education and Training Center established in 2000, is a training base for business talents in Hubei Province, and also the organizer of the foreign aid human resources development projects of the Ministry of Commerce of China.</p> <p>Since 2006, the Center has started to organize the international seminars in the fields of globalization, South-South cooperation, trade, textile, etc. jointly hosted by the Ministry of Commerce of the People’s Republic of China, the United Nations Conference on Trade and Development (UNCTAD) and the International Trade Center (ITC). So far, it has successfully launched nearly 100 sessions of international seminar, including “Economic Globalization Seminar”, “Seminar on International Trade Capacity Building in Developing Countries”, “Seminar on Economic Globalization and Industrial Transfer International”, “International Seminar on Economic Globalization and Made in China”, “Seminar on South-South Cooperation for Promotion of Africa’s Economic Development”, “Seminar on Trading Facilitation for Developing Countries”, “Seminar on Cotton Processing, Textile and Trade in Developing Countries”. More than 2,000 government officials from more than 120 developing countries in Asia, Africa, Latin America, Europe and Oceania have participated in the training activities. All the trainees who have participated in the training courses generally find that they have benefited a lot, and have highly appraised and given positive feedback for the seminars organized by China-Europe Training Center.</p>
