## Seminar on Epidemic Disease and Health Quarantine for Officials of Developing Countries

**Project Description** 

Project name	Seminar on Infectious Diseases and Health Quarantine for Officials from English-speaking  African Countries				
Organizer	Jiangsu Inspection and Quarantine Institute of Quality (Jiangsu Training Center for Commodity Inspection)				
Organizing time	July 21, 2022-August 3, 2022		Project language	English	
Countries to invite	Developing countries		Planned number of participants	40	
Training goals	The seminar will invite WHO technical consultants, health quarantine officers of China Customs, CDC experts on epidemic prevention and control, etc. to provide the knowledge and experience of epidemic prevention and control for other developing countries combined with the specific exploration and practice of China Customs to prevent the imported COVID-19 cases. The seminar will enable the participants to better understand the system and mechanism of health quarantine of China Customs, quarantine inspection at the airports, seaports and land ports, health supervision at ports, international travel health care, testing technologies of the infectious disease laboratories and other working contents of China Customs. At this critical moment of the global fight against COVID-19 pandemic, we hope that through this seminar we could share China's experience in order to help other developing countries defeat the COVID-19 pandemic at an early date.				
Requirements for participants	Professional background	<ul> <li>— Field or profession: port health and quarantine, epidemic prevention and control;</li> <li>— Position: health quarantine officers of customs, CDC experts of epidemic prevention and control, doctors, teachers and scientific research personnel, etc.</li> <li>— Rank, academic background or other qualification requirements: department director, professional technician</li> <li>— Working experience in relevant fields: 5 years and above</li> <li>— Priority qualification: health quarantine officers of the Customs</li> </ul>			
	Age	Not exceeding the legal retirement age of the participating country			
	Physical health	In good condition, able to attend the online training on time			
	Language ability	Participants should have the ability to listen, speak, read and write in English.			
	Others	Be able to use ZO	OOM skillfully to com	nplete the training.	

#### 1. Introduction to main lectures and contents

- 1) General Review of China and Introduction to Chinese Culture: it introduces the status quo of China's politics, economy, society, culture, etc.
- 2) Reform and Opening-up and the "Belt and Road" Initiative of China: it introduces China's reform and opening-up and the Belt and Road Initiative.
- 3) An Overview of Inspection and Quarantine of China Customs: it introduces the organizational structure and the function of inspection and quarantine of China Customs.
- 4) Health and Quarantine System and Mechanism of China Customs: it introduces the historical development, organizational structure, laws and regulations for health and quarantine of China Customs.
- 5) International Health Regulation 2005 (IHR 2005) and Health and Quarantine of China Customs: it interprets the IHR 2005 integrated with the practice of health and quarantine of China Customs.
- 6) Public Health Core Capacity Building at Border Ports of China: this lecture introduces the practice and effects of public health core capacity building at border ports of China in light of the requirements for public health core capacity building specified in IHR 2005.
- 7) Health Quarantine at Airports of China Customs: it introduces the working procedures of health quarantine on the entry-exit aircrafts combined with COVID-19 prevention and control.
- 8) Health Quarantine at Seaports of China Customs: it mainly introduces the information declaration, risk assessment, determination of quarantine methods, boarding quarantine, health treatment, certificate issuance and information report, etc.
- 9) Health Quarantine at Land Border Ports of China Customs: it introduces the scientific policy implementation and precise prevention and control of China Customs, which comprehensively improves the health security control capabilities at land border ports, and earnestly consolidate the work experience of health quarantine defense at ports.
- 10) Health supervision at ports of China: it introduces the issuance of health permits at frontier ports, daily health supervision and the focus of port health supervision during the COVID-19 pandemic.
- 11) Medical Vector Surveillance at Ports of China: it mainly introduces the significance and achievements of surveillance and control of ports in China and imported vectors, as well as the strengthening of international cooperation to jointly prevent and control the spread of vector-borne diseases through international trade.
- 12) Health Care for International Travel: the work of health care for international travel is an important part of health quarantine work. This lecture will introduce the main situations of the work of international travel health care in China from three aspects: daily entry-exit infectious disease monitoring, travel health education and protection, and prevention and control work during the COVID-19 pandemic.
- 13) Laboratory Testing Methods for Infectious Diseases: it mainly introduces the types and hazards of infectious diseases, monitoring methods at ports, on-site (rapid) and laboratory testing methods for infectious diseases, and epidemic control.

#### 2. Introduction to the lecturers

- Dong Xian: former director of Qishuyan District of Changzhou Municipal Government, Doctor
- 2) Shen Yilin: former director of Foreign Affairs Office of Changzhou Municipal Government
- 3) Dai Yunhui: Commissioner of Zhenjiang Customs, Senior Official, Doctor
- 4) He Yuping: Director of International Travel Health Care Center of Shanghai Customs, Chief Physician
- 5) Zheng Jianning: Chief Inspector of Ningbo Customs, Counsel, IHR 2005 Border Health

# Introduction to training contents

- Expert of WHO, Member of WHO Yellow Fever Emergency Committee, Emergency System Construction Guidance Expert of National Health Commission, COVID-19 Port Prevention and Control Expert of General Administration of Customs of China (GACC).
- 6) Qi Shaoting: Senior Officer of Xinshengwei Customs, served as Deputy Director of former Nanjing Lukou Airport Inspection and Quarantine Bureau, former Vice Commissioner of Xinshengwei Customs. He has been engaged in prevention and control of infectious diseases at ports for many years, and is good at risk assessment of epidemic information and emergency response to infectious diseases.
- 7) Zhang Mingjiang: Senior Officer of Nantong Customs. He has been engaged in the health and quarantine of ships and personnel at seaport.
- Wang Dongwei: Vice Director of Health and Quarantine Department of Ha'erbin Customs, Master's degree. He has long been engaged in epidemic prevention and control at land border ports, cross-border medical vector monitoring, and core capacity building of port public health. He has rich experience in health quarantine management and work at land ports.
- 9) Cao Xiaoyun: Vice Chief of Health Supervision Division, Branch Office of Wuxi Customs at the airport. She has been engaged in port health quarantine for many years, and is very familiar with health supervision work at port.
- 10) Nie Weizhong: Senior Officer of Qinhuangdao Customs, Health Quarantine Expert of GACC. He has been engaged in health quarantine, imported medical vector monitoring and control at ports for a long time.
- 11) Tian Lingling: Director of Clinic Department of Jiangsu International Travels' Health Care Center, Associate Chief Physician. She is good at health education, consultation and infectious disease monitoring for inbound and outbound students and workers.

### 3. Symposiums arranged for this seminar

- 1) Inform the trainees about the arrangements of the seminar, matters worthy of attention, ZOOM operating guidance, etc., and solicit training needs
- 2) Sun Lixin, Laboratory Director of Jiangsu International Travel Health Care Center and Chief Technician, will introduce the laboratory testing methods of novel coronavirus.
- 3) Zhang Jiantao, former Director of Acute Infectious Diseases Prevention and Control Institute of Changzhou CDC will have exchanges and communication with participants on the vaccination situation in China.
- 4) Wu Hailei, Vice Director of Health Quarantine Department of Nanjing Customs would make an introduction to China's construction of international health airports and international health seaports.
- Participants will be invited to introduce the health and quarantine work combined with the COVID-19 containment in their own countries for two sessions. (To facilitate communication with Chinese experts, the participants should prepare the following materials in advance: ①introduction of participants, including department and professional fields; ②current health quarantine situations and the epidemic prevention and control work of respective countries; ③opinions and suggestions on the health and quarantine work of China Customs, etc.)
- 6) Summarize and discuss training contents, achievements, improvement suggestions, international cooperation in health inspection, etc.
