| About the Organizer | <p>1 □ International Health Exchange and Cooperation Centre, National Health Commission, P.R. China (IHECC) is an independent legal entity, directly led by NHC, that specializes in international exchange and cooperation in the field of health. It is responsible for organizing research on the theories, policies and developing strategies of international cooperation in the field of health and providing policy suggestions and technical advisory services on legislation, government decision-making and regulation planning. IHECC drafts operational regulations and technical specifications for international exchanges in health industry, undertakes international health projects, carries out public benefit health cooperation projects both in and outside China, and strives to promote global cooperation for the development of health industry. The Center has been undertaking foreign aid training programs of MOFCOM for 17 years and accomplished 81 programs, receiving</p>  |                 |         |

|--------------------------|--|----------------------------|
|                          | <p>more than 1,877 trainees from 92 countries and regions.</p> <p>2□IHECC has established the two principles of "training with the best resources" and "multi factors, multi benefits, whole links and long-term development", actively explored the remote training mode of foreign aid projects, and made full use of online conference system and video recording. This will enable health professionals from the Belt and Road countries participating in the foreign aid training programs to know more about the pathway of health development, enhance mutual understanding and promote mutual learning, as well as achieve the goal of consultation, construction and sharing of a Global Community of Health for All.</p> <p>3□IHECC attaches great importance to foreign aid training and has a rigorous organization, coordination and management mechanism. IHECC has carried out hundreds of health training programs in China, with profound technical and faculty resources, and the ability to leverage and integrate the forces of government, academia and industry.</p> <p>4□IHECC has organized Seminar on International Health and Development for South Africa in 2019, and organized several online training programs related to health management and international cooperation, including Seminar on International Health Cooperation and Management Talents for B&amp;R Countries in 2021, Seminar on Global Public Health Governance in 2022 etc. Trainees actively applied for and the training courses have been well received.</p> |                            |
