About the Co-organizer	<p><i>Academy for International Business Officials</i> (AIBO, also known as <i>Training Center of the Ministry of Commerce</i>), is the only educational and training institution directly affiliated to the <i>Ministry of Commerce</i> (MOFCOM), People’s Republic of China.</p> <p>Situated in the famous Xiaotangshan Longmai hot spring area, Changping District, on the riverside of Wenyu River which is reputed as the mother river of Beijing, AIBO boasts a history of 41 years. Covering an area of nearly 600 <i>mu</i> (about 40 hectares) with the total floor area of over 100,000 m², it enjoys beautiful environment and fresh air and has all necessary facilities. Besides, it is conveniently connected to the city’s transportation networks.</p> <p>AIBO provides training, academic teaching, conference service as well as holiday service. It has meeting rooms (including VIP rooms) of various sizes. AIBO’s hotel is well-furnished and provides all necessary facilities.</p> <p>AIBO is the first to organize seminars for government business officials from other developing countries starting from 1998. Now seminars it organizes cover a large range of</p>

topics such as economic administration, trade and investment, city planning and administration, telecommunication, transportation, construction of development zones, logistic management, development of natural resources, international labor cooperation, coordinated development of urban and rural areas, wireless communication and digital TV technology, clean energy, etc. Apart from the seminars for officials at director's level or director general's level, AIBO has also organized many ministerial workshops.

By the end of 2022, AIBO has hosted a total of 2008 training courses/seminars for officials from developing countries, including 124 seminars for officials at ministerial-level, and received 58,632 officials from more than 160 countries and regions in the world, including 5 officials at the vice national-level and 1070 officials at the ministerial-level.

AIBO will strive to make new contributions to the development of China's commerce and develop into a well-known educational and training institution both at home and abroad.

	<p>China Railway Eryuan Engineering Group Co.Ltd (CREEC), founded in 1952, is subordinated to China Railway Group Limited (CREC), which is one of the Fortune 500 Corporations and one of the Most Influential 500 World Brands. CREEC is one of the huge-scale comprehensive engineering survey & design corporations in China which has won the highest National Scientific and Technological Progress Award twice. Its businesses scope covers the whole process of engineering construction, including planning, survey and design, consulting, supervising, product industrialization and EPC, etc. It provides services in many fields: railway, urban rail transit, highway, municipal works, port, civil aviation airport, ecology and environment, etc.</p> <p>CREEC is the absolute core design force of the national railway network. Among the railway projects it has presided over or participated in, over 35,000 km have been completed and opened to traffic, accounting for 1/4 of the total mileage of China’s operating railways, including over 12,000 km of high-speed railways (HSR), accounting for 1/3 of the total mileage of HSR opened to traffic in China. Besides, among the 65 cities that have been approved for rail transit construction planning, CREEC has undertaken more than 150 urban rail transit projects in 40 cities, with nearly 2400 km being completed and opened to traffic, accounting for more than 1/3 of the rail transit lines in operation nationwide. As a domestic enterprise with the most overseas engineering design achievement, CREEC has undertaken more than 180 projects in more than 50 countries in Asia, Africa, South America, Europe and Oceania. It plays an important role in the construction of six economic corridors of the Belt and Road, with projects covering almost all B&R countries.</p> <p>CREEC has been focusing on fostering high-level, urgently-needed professional and technical personnel in integrated transportation through great effort in international education and training. It cultivates management personnel and technical talents for comprehensive transportation project life cycle, from planning and design to operation and maintenance, with its strong faculty, sound management institution, ample experience, self-contained facilities, and competitive "industry-university-research" collaborative innovation capability. To better serve the One Belt One Road and advance interconnectivity, CREEC has completed international education and training for more than 2,100 people from over 100 countries and regions in recent years.</p>
