Introduction of Organizer	<p>Chinese Red Cross National Training Center (“Training Center”) was established on June 14, 1983. For more than 20 years, the training center abides by the fundamental principles of the International Red Cross and Red Crescent Movement, and upholds “humanity, fraternity and dedication”, the spirit of the Red Cross Society. It has experienced three development stages, namely “hotel management”, “hotel management and first-aid training” and “hotel management, first-aid training and major public welfare program implementation”. Training Center has given full play to its unique role and influence in terms of first-aid training, Red Cross staff training, health and safety education training, national foreign aid training etc. as a nationwide training institution of the Red Cross system. Also, it has formed a development pattern led by program management, while based on first-aid training and hotel management.</p> <p>Main business: In terms of training, there are three aspects. First, the Red Cross first-aid training, with an aim to promote the knowledge and skills in disaster prevention and reduction, emergency shelter, as well as self and mutual medical aid. Second, Red Cross staff training, intended to organize knowledge and skills training targeting grassroots staff. Third, international training, including inviting Red Cross personnel of developing countries to China to have a comprehensive understanding of our current work of Red Cross, sharing our best practices, and meanwhile organizing RC staff to study abroad, so as to learn management mode and development experience of public service organizations in developed countries. In terms of project management, it is the management and implementation of core programs funded by the Red Cross Society of China National Office, IFRC, ICRC, and NSs (including Integrated Community Resilience, First Aid, and Emergency Rescue programs), Red Cross Life, Health and Safety Education programs funded by the Ministry of Finance, as well as reproductive health projects supported by the United Nations Population Fund, and other humanitarian and public welfare programs.</p>
