IHECC will organize pre-hospital, in-hospital Emergency and Critical Care professionals to give lectures, and share and exchange on the theory, practice and technology of Emergency and Critical Care.</p> <p>The content of the seminar involves specific topics such as the Treatment of Acute Respiratory Distress Syndrome (ARDS), Acute Kidney Injury and Renal Replacement</p>		

	<p>Therapy, ECMO in Respiratory Failure, Nursing of Critically Ill patients, and Air Medical Transport of Acute and Critically Ill patients.</p> <p>The holding of this seminar will enhance the participants' understanding of China's emergency and critical care, promote mutual trust, strengthen exchanges and cooperations between China and relevant countries in the field of emergency rescue and critical care, and further deepen the friendship of the peoples of the "Belt and Road" countries.</p> <p>Online video courses, Q&A exchanges and online discussion will be provided, sharing the current situation and appropriate experience of China's healthcare management in multiple forms and perspectives.</p>		
Host City	Beijing	Cities to visit	Beijing City
Notes	<ol style="list-style-type: none"> 1. This is a remote seminar, which requires trainees to have devices such as computers with cameras, microphones and internet connection. 2. Please be punctual for class and observe class discipline. Class attendance & performance will serve as the criteria for issuing the training certificate. 3. Class discipline: Enter online classrooms 10 minutes ahead of time to test equipment and make other preparations. Trainees are required to use their real names (consistent with passport names) as user names □ Online alias format: Name + Nationality). 4. Information security: For information security and privacy, please don't share the seminar content on any social media platforms. Course materials will be sent to trainees after each class. 		
About the Organizer	<ol style="list-style-type: none"> 1. International Health Exchange and Cooperation Center (IHECC), National Health Commission (NHC), P.R. China is an independent legal entity, directly led by NHC, specializes in international exchange and cooperation in the field of health. It is responsible for organizing research on the theory, policy and development strategy of international cooperation in the field of health and providing policy suggestions and technical advisory services on legislation, government decision-making and regulation planning. IHECC drafts operational regulations and technical specifications for international exchanges in health industry, undertakes international health assistance projects, carries out public benefit health cooperation projects both in and outside China, and strives to promote global cooperation for the development of health industry. The Center has been undertaking foreign aid training programs of MOFCOM for 16 years. 81 programs had been accomplished, receiving 1,877 trainees in 92 countries and regions. 2. Two principles of "training with the best resources" and "multi factors, multi benefits, whole links and long-term development" has been established, actively explored the remote training mode of foreign aid projects, and made full use of online conference 		

	<p>system and video recording. This will enable health professionals from the "Belt and Road" countries participating in the foreign aid training program to know more about the pathway of health development, enhance mutual understanding and promote mutual learning, as well as achieve the goal of consultation, construction and sharing of a Global Community of Health for ALL.</p> <p>3. IHECC attaches great importance to foreign assistance training and has a rigorous organization, coordination and management mechanism. IHECC has carried out hundreds of health training programs in China, with profound technical and faculty resources, and the ability to leverage and integrate the force of government, academia and industry.</p> <p>4. In 2016, 2019 and 2021, IHECC organized the Ghana Emergency and Intensive Care Training Course, Pakistan Training Course on Emergency and Critical Care, and the Training Course on ICU for Jamaica, respectively.</p>
