<p>About the Organizer</p>	<p>1. International Health Exchange and Cooperation Centre, National Health Commission, P.R. China (IHECC) is an independent legal entity, directly led by NHC, specializes in international exchange and cooperation in the field of health. It is responsible for organizing research on the theory, policy and development strategy of international cooperation in the field of health and providing policy suggestions and technical advisory services on legislation, government decision-making and regulation planning. IHECC drafts operational regulations and technical specifications for international exchanges in health industry, undertakes international health assistance projects, carries out charity health cooperation projects both in and outside China, and strives to promote global cooperation for the development of health industry. The Center has been undertaking foreign aid training programs of MOFCOM for 17 years. It finished 81 programs, receiving almost 1,877 trainees from more than 92 countries and regions.</p> <p>2. IHECC has established the two principles of "training with the best resources" and "multi factors, multi benefits, whole links and long-term development", actively explored the remote training mode of foreign aid projects, and made full use of online conference system and video recording. This will enable health professionals from the Belt and Road countries participating in the foreign aid training program to know more about the pathway of health development, enhance mutual understanding and promote mutual learning, as well as achieve the goal of consultation, construction and s of a global community of health for all.</p> <p>3. IHECC attaches great importance to foreign aid training and has a rigorous</p>

	<p>organization, coordination and management mechanism. IHECC has carried out hundreds of health training programs in China, with profound technical and faculty resources, and the ability to leverage and integrate the forces of government, academia and industry.</p> <p>4. IHECC has organized several training programs related to Telemedicine, including Training course on Telemedicine for Morocco in 2019 (Off-line Training), and Training course on Telemedicine for Pakistan in 2022 (Online training), Trainees had been actively participated, and the training coursed had been well received by them.</p>
