<p>About the Organizer</p>	<p>Anhui Institute of International Business (AIIB) is a full-time higher vocational college, attached to the Bureau of Commerce of Anhui Province. AIIB was established in 1980, and after more than 30 years of development, it has become an important base for business training in Anhui Province. In March 2012, AIIB became one of the organizers for foreign-aid training approved by the National Foreign Aid Division of the Ministry of Commerce. AIIB is located in Hefei, the capital city of Anhui Province, where there are some famous places of interests such as the monument of Bao Zheng and the former residence of Li Hongzhang. There are also some famous tourist attractions such as Huangshan Mountain, Jiuhua Mountain and Tianzhu Mountain in the province .</p> <p>Anhui Construction Engineering Group, the assistance unit of the seminar, was founded in 1952. It is a province-owned large-scale construction enterprise, and it owns special-class certificate of housing construction general contracting, A-class certificate of construction industry (constructional engineering) design, and the qualifications of contracting projects abroad, labor management rights and the enterprise of implementing foreign aid project sets constructions, approved by Ministry of Commerce. Besides, the enterprise also owns A-class certificates of engineering consultation, construction observation and construction products quality inspection, as well as more than 130 qualifications of real estate development, mechanical and electrical equipment installation, architectural decoration and so on, among which 70 qualifications are of A-class. In 2013, the enterprise was selected “ENR Top 225 International Contractor” for the fifth consecutive years, and also won several domestic awards for consecutive years. In international market, the projects contracted by the enterprise spread all over more than 40 countries and regions in five continents, and a large numbers of projects received praises from Ministry of Foreign Affairs, Ministry of Commerce, as well as the high evaluations of foreign clients.</p>
<p>Seminar Content</p>	<p>Commissioned by the Ministry of Commerce of the People's Republic of China, Anhui Institute of International Business will organize Seminar on Infrastructure Capacity Construction for Countries along the Belt and Road from September 4th to September 23rd. The Seminar consists of professional lectures, practical teaching and field visits. The contents of professional lectures mainly including municipal construction, underground pipe network engineering, railway traffic construction, port and dock construction, green building, water conservancy construction, Internet plus building and others. All the lecturers are professors and technicians with senior technical titles from Anhui Construction Engineering Group, all of them have rich construction experience and expertise.</p> <p>During the seminar, the officials will be arranged to visit the construction sites of Anhui Construction Engineering Group Co.,Ltd for practical teaching. The officials will also visit the international city Xi’an and the city Huangshan which owns a world heritage of nature and culture ,to experience the infrastructure capacity construction of the two cities by themselves..</p> <p>In short, through the combination of theory and field visits, the officials can learn more knowledge about infrastructure capacity construction, and promote cooperation and exchanges between China and the countries along the Belt and Road in this field.</p>
