About the Organizer	<p>Yangling Demonstration Zone is the first established national agricultural high-tech industry demonstration zone in China, and the only pilot free trade zone featuring agriculture. Yangling has convenient transportation, 80 kilometers from xi 'an City, the ancient capital of 13 dynasties, and 90 kilometers from Xianyang International Airport. The International Exchange Center of Yangling Demonstration Zone was established in 1997, specialized in foreign agricultural exchange and training. In 2011, Ministry of Commerce of the People's Republic of China officially established China Dry-farming Agricultural Technical Assistance Training Base in Yangling Demonstration Zone, which is managed and operated by the International Exchange Center of Yangling Demonstration Zone. Training Base in Yangling Demonstration Zone, which is managed and operated by the International Exchange Center of Yangling Demonstration Zone. The training base has one automated classroom for 40 people, one 6-channel simultaneous transmission classroom for 60 people, and two classrooms for 30 people. It is also equipped with meeting rooms, tea break rooms and so on.</p> <p>Relying on the key agricultural universities, Northwest Agriculture & Forestry University, Northwest University of Shaanxi Province, Shaanxi University of Chinese Medicine, Huashan International Company, First Bureau of China Railway, and other scientific and educational institutions and enterprises, it integrates training resources to conduct human resources training. After 14 years of development, Yangling has formed a training system consisting of six categories, including agricultural development, infrastructure construction, economic and social governance, medicine and cultural exchange, and has a stable team of senior professional training teachers. The training topics include agricultural economic management, soil and water conservation, water-saving irrigation, regulation of agricultural production environment, animal husbandry, infrastructure construction, e-commerce, traditional Chinese medicine, handicraft production, etc. Yangling has undertaken more than 100 foreign aid training programs (including seven minister-level seminars for officials), and trained more than 2,500 officials, agricultural technicians and scientific and educational personnel from more than 100 countries.</p>	

<p>Seminar/ Training Course Content</p>	<p>According to the arrangement of China's foreign aid training in 2019, International Exchange Center of Yangling Agricultural High-tech Industry Demonstration Zone will hold "Seminar on Modern Agri-Economy Management for Developing Countries" from September 5 to September 27, 2019 in Yangling Demonstration Zone of Shaanxi Province, China. The training language is English.</p> <p>This seminar will be held in the form of "Thematic lectures-Topic discussions-Field visits" in Yangling. Officials of the workshop will pay a field visit to Xi'an City in Shaanxi Province and Beijing City, during which participants will visit the Xi'an Qujiang Agriculture Exposition Park in Xi'an City and Beijing Xiaotangshan Special Food Grand View Garden in Beijing City to inspect the construction of protected agriculture and plant factory.</p> <p>Core courses: 1. Agriculture Business and Management. It introduces the content, tasks, principles and methods of agriculture business management, and organization and business patterns of agriculture production. 2. Agriculture Business Management and Sustainable Development of Agriculture. It introduces some important issues in the agriculture business management, the importance of agriculture development and the future development direction of agriculture and rural areas. 3. Micro-finance and Agriculture Development. It introduces Micro-finance and improvement of rural life, and the credit and risks of agriculture micro-finance. 4. Farmer Financing Credit and Innovation of Financial Support System. It introduces the credit relationship of Chinese farmer's capital loan, research on credit evaluation methods of agriculture-related economic organizations, and improvement of credit and financial support for agriculture-related economic organizations. 5. Farmer Cooperatives Organize Management and Administration. It introduces the concept, development and internal governance structure of farmer cooperatives.</p> <p>Through the seminar, participants will be able to conduct topical discussions on both their feelings during the visit to Yangling and current management problems existing in the modern agricultural economy in their homeland. Participants can apply the knowledge and technology of modern agricultural economy management they have learned to promote the management techniques of agricultural economy and make contributions to solving the management problems of agricultural economy of their own country.</p>
