About the Organizer	<p>Shandong Foreign Trade Vocational College is the oldest college in Shandong Province with foreign trade and economic vocational education. It is a national high-quality college, a high-quality college in Shandong Province, a famous school in Shandong Province, and a brand school in Qingdao. In the past 50 years, it has cultivated more than 60,000 graduates, and alumni have established over 3,000 enterprises of various scales, making outstanding contributions to regional economic and social development. The college has 11,000 full-time students and more than 600 teachers. The college now offers 24 majors including Economic Management, Logistics Management, Flight Attendant and etc. The college is the directing unit of the Advisory Committee of Foreign Language Teaching in Vocational Education, Ministry of Education, P.R.China. It is the deputy directing unit of the Instructing Committee of National Vocational Education of Foreign Economic Relation & Trade. The college has two large training bases in Tai'an and Qingdao, and five research centers including the Free Trade Zone Research Center. Shandong Foreign Trade Vocational College is affiliated to Shandong Provincial Department of Commerce and has close ties with the provincial and municipal commercial bureaus. It can take advantage of various resources of Shandong province and maintain close contact with thousands of companies. It has cooperated with thousands of well-known enterprises such as Sea view Garden Hotel, China Travel Service Head Office (Qingdao) Co., LTD., Hisense group and other well-known enterprises to build more than 200 off-campus</p>	

	<p>training bases.</p> <p>In recent years, our college has taken full advantage of the large agricultural province, made full use of the advantages of advanced greenhouse vegetable production technology and the advantages of teachers in agricultural colleges and universities, and successively undertaken 7 sessions of training classes like the theme of "Vegetable Cultivation Technology". Six of them are training courses on vegetable cultivation technology for developing countries and Asia and European countries, and one is a bilateral class in Ghana, which has accumulated rich teaching and practical experience. Vegetable cultivation technology training class has become the characteristic project of our college. The college has a long-term cooperative relationship with Shandong Agricultural University, Qingdao Agricultural University, Yantai Academy of Agricultural Sciences and Shandong Academy of Agricultural Sciences. The college employs experts and scholars with a long-term contract from agricultural colleges and agricultural research institutions to give lectures. More than 90% of employed teachers are professors or senior researchers, provincial academic leaders or leaders of industry associations in relevant fields.</p>
<p>Training Course Content</p>	<p>This project is mainly aimed at enterprise managers and technicians in agricultural sectors of developing countries, and the training arrangements are as follows: 1. China's Basic National Conditions; 2. Present Situation and Prospect of Facilities Development in Shandong Province; 3. Technologies of Facility Environment Control; 4. Soilless Seedling Technology of Vegetables; 5. Vegetable Soilless Cultivation Setting form; 6. Grafting Seedling Technology; 7. Cultivation Techniques of Ginger, Watermelon, Melon, Cucumber And Green-Leaf Vegetables; 8. Management Technology of Vegetable Soil, Fertilizer And Water in Greenhouses; 9. Vegetable Post Harvest Processing Technology; 10. Courses on Pollution-free Control Technology of Common Vegetable Diseases and Pests.</p> <p>This seminar will combine class discussions, idea exchanges during lectures with visits. It will organize participants to visit Suzhou, Jinan, Shouguang and Qingdao. Suzhou is a famous historical and cultural city in China and one of the important central cities in the Yangtze river delta. Modern agriculture in this city developed a lot. And participants will visit the state-level agricultural demonstration zone in Kunshan and Xiangcheng region; Jinan, also known as "City of Springs", is the capital of Shandong Province, the national historical and cultural city, Shandong province's political, economic, cultural and educational center. Students will practice vegetable seedling and cultivation in Jinan, and visit Shandong Yuexin Agricultural Technology Co., LTD. Shouguang city is the permanent host city International Vegetable Science and Technology Expo of China (Shouguang), where students will visit the high-tech vegetable demonstration park and Shandong Qidi Agricultural Science And Technology Co., LTD. Qingdao is the municipality of independent planning status under the national social and economic development, and it's also a vice provincial city and important coastal central city in China. Besides with international harbor, it is a coastal open, new first-tier, economic center, national historical and cultural city.</p> <p>Through this training course, trainees will learn about a multi-level and comprehensive China. The advanced experience, technology including practical technology will be grasped by the students. It is expected to provide reference for developing countries to improve greenhouse vegetable cultivation technology, and deepen the synergy and cooperation between countries and</p>

	<p>China in the initiative of the Belt and Road Initiative.</p>
