<p>About the Organizer</p>	<p>Jiangxi College of Foreign Studies is a co-developed college of the People’s Government of Jiangxi Province and the Ministry of Commerce of China and one of the first group of Demonstrative Vocational Colleges in Jiangxi Province. The college has been successively designated as “Jiangxi Province International Economic and Foreign Trade Personnel Training Center”, “Jiangxi Province Open-Economy Intelligence Training Center”, one of the training base for the leading cadres of the business administrative authorities from the prefecture-level cities in China, “MOFCOM Training Base for International Business Officials” and was awarded one of the Top 50 Vocational Colleges of International Influence of China.</p> <p>The college, covering an area of over 370,000 square meters, consists of 12 departments and 49 majors, including 11 foreign languages. Meanwhile, the college has a well-equipped hotel catering for training, teaching, meeting and entertainment.</p> <p>The college has been the organizer of foreign aid training projects since 2010, covering over 10 fields such as public management, energy and minerals, trade and economy, manufacturing industry, party and government, business services, water conservancy and environmental management, culture and sports, transportation and logistics, and financial industry. And these projects involve technical training courses and seminars at ministerial and director’s level.</p> <p>By the end of 2018, the college had successfully organized 148 foreign aid training projects, and had trained 3,890 international business officials from 126 developing countries, including Asia, Africa, Latin America and Europe.</p>

Seminar Content	<p>Entrusted by the Ministry of Commerce of the People’s Republic of China, Jiangxi College of Foreign Studies is to host the “Seminar on Oil & Gas Infrastructure Connectivity Cooperation in the Context of BRI” from October 28th to November 17th, 2019, which will be conducted in English and last for 21 days.</p> <p>Through a combination of lectures, discussions, case studies and field trips, the seminar will be well-focused on the following topics: China's Reform and Opening-up; "Belt & Road" Initiative and Infrastructure Connectivity; Research and Application of Non-Seismic Exploration Technology; Evaluation and Application of Reservoir Logging in Complex Areas; Application and Prospect of Seismic Exploration Technology in Oil and Gas Exploration; From Sediments To Petroleum; Current Status and Development of Oil and Gas Equipment; Application of Chemical Materials in Oil and Gas Field Development; Offshore Oil and Gas Engineering Technology; Intelligent Optimization Technology for Oil and Gas Reservoir Development; Intelligent Drilling Technology; Technical Status and Future Development Trends of China's Pipeline Construction Cooperation along the Belt and Road Initiative so as to share Chinese successful experience in related fields. While taking full advantages of the teaching resources of our college, we will also invite experts and scholars from Renmin University of China, China Foreign Affairs University and Yangtze University as lecturers.</p> <p>In addition to lectures and discussions, we will organize trips to the First Drilling Company, SINOPEC Jiangnan Oilfield Service Corporation and Wuhan Oilfield United Station in Qianjiang City to investigate oilfield drilling technology and well construction technology; trips to the Fourth Machinery factory of SINOPEC Oil Engineering Machinery Corporation and SJS Ltd in Jingzhou City to investigate the development and manufacturing of petroleum machinery equipment; trips to Yangtze University Petroleum Exploration and Development Laboratory in Wuhan City to investigate petroleum exploration and development; trips to Nanchang Gas Group Company to investigate the safety management of urban natural gas. In addition, we will also arrange visits to inspect the urban construction and development of Nanchang, Shanghai, Wuhan, Jingzhou and Qianjiang to facilitate a better understanding of China's social and economic development, as well as of China's experience and Chinese model, thus promoting international exchanges and cooperation in the field of petroleum& natural gas and infrastructure under the Belt and Road Initiative..</p> <p>The content shown above is subject to changes and a finalized version shall be provided upon the official’s arrival.</p>
