About the Organizer	<p>The Shenzhen Association for Promoting International Economic &amp; Technological Cooperation (APIETC) was established in October, 2003. It is a social organization sponsored by Commerce Bureau of Shenzhen Municipality. Under the country’s strategy of “Expanding Outward”, APIETC guides and helps Shenzhen local enterprises to expand their overseas markets, as well as promote international economic and technological cooperation and exchange.</p> <p>APIETC has a solid background in high-tech field such as telecommunications and computer technology. They are specialized in organizing seminars and training courses in these fields. They have successfully organized more than 100 China Aid training courses authorized by the Ministry of Commerce, including training projects related to computer software and hardware, information and communications technology. They have trained more than 3,000 government officials and professionals for developing countries and have extensive experiences in the management of China Aid training programs. APIETC undertook 8 seminars related in the field of smart city since its establishment, having hundreds of square meters machine room, 2 complex laboratories and various computer equipment, possessing a dedicated team with extensive training and teaching experiences in the field of smart government and city construction through many years of self-accumulation and cooperation with Huawei and ZTE,etc.</p>	

<p style="text-align: center;">Seminar Course Content</p>	<p>APIETC Shenzhen is going to hold the Seminar on Smart Government for Developing Countries from November 6th to December 3rd (28 days) in China.
