under the

SCP TRAINING AWARD (E-LEARNING)

to be conducted by

CIVIL SERVICE COLLEGE, SINGAPORE

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, over 137,000 officials from more than 180 countries, territories and intergovernmental organisations have participated in our courses and study visits. The SCP is managed by the Technical Cooperation Directorate of the Ministry of Foreign Affairs, Singapore.

Civil Service College

Civil Service College (CSC) is the central learning institution for the Singapore Public Service. It plays a pivotal role in nurturing and developing people for a first-class Public Service. As a Statutory Board under the Prime Minister's Office, we endeavour to be the heart of learning excellence and development for the Singapore Public Service.

CSC offers a comprehensive suite of programmes that build strategic capability in the public service, focusing particularly on core areas in public governance, leadership, public administration, and management. We work closely with central government and public sector agencies to embed values, communicate public sector directions, and manage change in individuals and organisations.

CSC partners public and private sector organisations as well as academia and international government agencies to exchange best practices and experiences in leadership, policy development, public administration, and public reforms.
