

UNDERSTANDING RISK MANAGEMENT AND RISK FINANCING FOR DISASTER RESILIENCE

28 FEBRUARY TO 11 MARCH 2022

VIRTUAL FORMAT

Jointly sponsored by the

SINGAPORE COOPERATION PROGRAMME

and the

UNITED NATIONS OFFICE FOR DISASTER RISK REDUCTION (UNDRR)

under the

SINGAPORE-UNDRR JOINT TRAINING PROGRAMME

to be conducted by the

**CENTRE FOR PROFESSIONAL AND CONTINUING EDUCATION
NANYANG TECHNOLOGICAL UNIVERSITY, SINGAPORE**

the

UNDRR

and the

UNIVERSITY OF WEST INDIES

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, over 132,000 officials from more than 180 countries and territories have participated in our courses and study visits. The SCP is managed by the

Technical Cooperation Directorate of the Ministry of Foreign Affairs, Singapore.

United Nations Office for Disaster Risk Reduction (UNDRR)

UNDRR brings governments, partners and communities together to create a safer, more resilient world and is the focal point in the United Nations system for disaster risk reduction focused on building resilience and protecting sustainable development gains from disasters. UNDRR is also the custodian of the Sendai Framework for Disaster Risk Reduction, supporting countries in its implementation, monitoring and review of progress. The Regional Office for the Americas and the Caribbean facilitates this work in the region, including the organization of the Regional Platform for Disaster Risk Reduction.

The UNDRR Global Education and Training Institute (GETI), which was established in 2010, has a mandate to develop a new cadre of

professionals in DRR and climate change adaptation for disaster resilient societies. To deliver on this mandate, it has focused primarily on national and city leaders and municipal disaster risk managers. Over the years, UNDRR GETI has trained over 16,900 officials and other participants from 186 countries and territories.

University of West Indies (UWI)

The University of the West Indies (UWI) has a mission to advance learning, create knowledge and foster innovation for the positive transformation of the Caribbean and the wider world. The UWI has evolved from a university college of London in Jamaica with 33 medical students in 1948 to an internationally respected, regional university with near 50,000 students and five campuses: Mona in Jamaica, St. Augustine in Trinidad and Tobago, Cave Hill in Barbados, Five Islands in Antigua and Barbuda and an Open Campus. A global university rooted in the Caribbean, UWI also has 10 global centres in partnership with universities in North America Latin America, Asia, Africa, and Europe.

Centre for Professional and Continuing Education, Nanyang Technological University, Singapore (PaCE@NTU)

A research-intensive public university, Nanyang Technological University, Singapore (NTU Singapore) has 33,000 undergraduate and postgraduate students in the Engineering, Business, Science, Humanities, Arts, & Social Sciences, and Graduate colleges. It also has a medical school, the Lee Kong Chian School of Medicine, set up jointly with Imperial College London.

NTU Singapore is also home to world-class autonomous institutes – the National Institute of Education, S Rajaratnam School of International Studies, Earth Observatory of Singapore, and Singapore Centre for Environmental Life Sciences Engineering – and various leading research centres such as the Nanyang Environment & Water Research Institute and Energy Research Institute @ NTU.

Ranked among the world's top universities by QS, NTU has been placed the world's top young university for the past seven years.

Drawing upon NTU's world-renowned faculty and strong industrial connections to develop quality content, PaCE@NTU offers a wide range of programmes and courses for working professionals that are curated from various disciplines, and

conducted via different learning platforms. By offering short courses to semester-long courses, PaCE@NTU aims to equip professionals, managers, executives and technicians with cutting edge knowledge and skills to keep pace with the rapid technological changes in today's increasingly competitive economy and industrial landscape.

Course Objectives

The course aims to enhance ongoing efforts of the UNDRR to support and strengthen the efforts of Caribbean SIDS to enhance their risk-financing and resilience by better planning for future large-scale disasters in order to save lives and reduce disaster losses; support enhancement and implementation of Country Work Plans (CWP)/National Disaster Risk Reduction Strategies and/or development plans to prevent the creation of new risk and reduce existing risk, and contribute to the achievement of the global targets of the Sendai Framework for Disaster Risk Reduction (2015 – 2030); support the integration of DRR within sustainable socioeconomic development in order to reduce people's vulnerability and exposure; and strengthen partnerships and the cadre of trained professionals for DRR in the Caribbean region. It also supports the 2021 Regional Platform for DRR theme 'Building Resilient Economies in the Americas and the Caribbean.'

The course will provide an opportunity to exchange experience based on UNDRR, the Caribbean and the Singapore training experience. It seeks to build upon the existing Caribbean training process and strengthen partnerships and the cadre of trained professionals for Disaster Risk Reduction in the Caribbean region. As such, the course will also aim to train-the-trainer.

Synopsis

The programme will cover the following aspects:

- Understanding Systemic Risk
 - Lessons from COVID-19: Taking a multi-hazard approach to risk reduction, including addressing biological risks and multiple hazards
- Understanding Risk from an Economic Lens
 - Conducting vulnerability assessments through economic risk analysis,

catastrophe assessment, and finance management

- Strengthening Governance for Coherent DRR, Climate and Sustainable Development Action
 - Strengthening policy and decision-making processes
 - Promoting coherence in planning, budgeting, implementing and monitoring aspects of national strategies and plans related to development, adaptation and resilience.
 - Promoting greater decentralisation of decision-making to the local level
- Investing in Sustainability, Adaptation and Resilience
 - Financing climate change adaptation and mitigation measures
 - Securing innovative climate financing
- Enhancing Preparedness for Effective Response and Build Back Better from an Economic Lens
 - Public health resilience through pandemic preparedness in Singapore
 - Pre-disaster investment in resilience and planning for 'build back better'
 - Innovative post disaster financing

Please view this video for more information on the Singapore-UNDRR Joint Training Programme and DRR: <https://www.go.gov.sg/drr2019video>.

Methodology

This short course will mix lecture, discussion and practical exercise with the aim of maximising engagement and exchange of experience among participants. Zoom platform will be used for meetings (polls, chat and Q&A), reading, online video and/or offline presentations for self-study, and tools for individual and group practice. Participants will also have adequate opportunity to share their experiences, learning points and challenges in an online discussion forum.

Regulations

Participants are required to comply with the following:

- Strictly observe course schedule and not miss training sessions, and;
- Carry out instructions and abide by conditions as may be stipulated by the nominating Authority or Government, the Government of Singapore,

UNDRR and PaCE@NTU, with respect to the course.

Duration

The online sessions will be held Mondays, Wednesdays and Fridays, on **28 February & 2 March** from **7.30am to 9.30am (Caribbean time, GMT -4)** and, **4, 7, 9 & 11 March 2022**, from **7.30am to 9.15am (Caribbean time, GMT -4)** on each of these days. This will be followed by self-study reading and online discussion of 30 to 60 minutes. A follow-up session focused on the Caribbean will be organized by UNDRR, ROAMC and UWI at a later date. Please see Annex for the draft programme (subject to changes).

Note: Session 0 on 28 February is for trainers-in-training only.

Application Information

Applicants should be:

- Mid-to senior-level government officials from the Caribbean states and territories involved in **disaster risk reduction policy making (e.g. Sendai Framework local ministry)**, and **risk-informed investments (e.g. Ministry of Finance or budget office)**;
- Identified trainers, ideally in partnership with UWI, Caribbean Disaster Emergency Management Agency (CDEMA) and/or representatives from Caribbean regional and national training departments. These trainers should have the potential to replicate the training in their respective countries
- Able to attend **all** the synchronous e-learning sessions. They will require an internet-enabled device with Zoom installed, and an internet-enabled device with functioning webcam, microphone and audio;
- Nominated by their respective Governments;
- Proficient in written and spoken English; and
- In good health.

Terms of Award

The course is sponsored by the Government of Singapore and UNDRR under the Singapore-UNDRR Joint Training Programme.

Application Procedure

(Closing date for nomination: **14 January 2022**)

The Government of Singapore is pleased to invite the respective National Focal Point for Technical Assistance (NFP) to nominate **three (3)** suitable applicants, one each from the following sectors:

- Involved in **disaster risk reduction policy making and implementation**;
- From the **finance/budget office**; and
- A **trainer** with the potential to replicate the training in the local context. The trainer should be representatives from the Caribbean regional and national training departments.

Selection of candidates will be based on merit. Should there be more applicants than training places, the Government of Singapore seeks the understanding of the respective NFP in the event that its nominee(s) is not selected.

All nominees are to submit their applications online at <http://www.go.gov.sg/caribbean2022> by **Friday, 14 January 2022**. NFPs are also required to use the SCP website (www.scp.gov.sg) to endorse nominees. Instructions and FAQs for Applicants and NFPs can be found at the links below:

- Applicants: <https://go.gov.sg/start-guide>
- NFPs: <https://go.gov.sg/start-nfp>

Note:

- Participants who attend 75% of 'live' e-learning sessions, will receive a certificate of completion from the SCP.
- Applicants should refrain from making telephone and email inquiries on the status of their applications.
- The **Ministry of Foreign Affairs, Singapore** will inform all applicants of the outcome of their applications. The NFP will also be informed directly or through Singapore's diplomatic representations in the nominating country.
