Under the framework of the

JOINT TRAINING PROGRAMME**

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, over 137,000 officials from more than 180 countries and territories have participated in our courses and study visits. The SCP is managed by the Technical Cooperation Directorate of the Ministry of Foreign Affairs, Singapore.

Colombo Plan Staff College

The Colombo Plan Staff College for Technician Education (CPSC) is an autonomous specialised agency of the Colombo Plan. It was established on

December 5, 1973 at the 23rd Consultative Committee Meeting of the Colombo Plan held in Wellington, New Zealand to assist the member countries of the Colombo Plan in developing and enhancing the quality of technical and vocational education and training (TVET) systems through planning and implementation of demand-driven training programs; research and development; information dissemination and consultancy activities in Asia and the Pacific region.
