

GREEN CLIMATE FINANCING

14 – 18 NOVEMBER 2022

Sponsored by the

SINGAPORE COOPERATION PROGRAMME

under the

SINGAPORE COOPERATION PROGRAMME TRAINING AWARD

to be conducted by

CIVIL SERVICE COLLEGE

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, over 137,000 officials from more than 180 countries and territories have participated in our courses and study visits. The SCP is managed by the Technical Cooperation Directorate of the Ministry of Foreign Affairs, Singapore.

Civil Service College

Civil Service College (CSC) is the central learning institution for the Singapore Public Service. It plays a pivotal role in nurturing and developing people for a first-class Public Service. As a Statutory Board under the

Prime Minister's Office, we endeavour to be the heart of learning excellence and development for the Singapore Public Service.

CSC offers a comprehensive suite of programmes that build strategic capability in the public service, focusing particularly on core areas in public governance, leadership, public administration and management. We work closely with central government and public sector agencies to embed values, communicate public sector directions, and manage change in individuals and organisations.

CSC partners public and private sector organisations as well as academia and international government agencies to exchange best practices and experiences in leadership, policy development, public administration and public reforms.

Climate Action Package

This course is part of Singapore's Climate Action Package, a suite of courses launched in 2018 to support the efforts of other developing countries in building climate resilience and achieving their climate pledges.

Course Objectives

Climate finance plays an important role in supporting the world's transition towards a low-carbon future. It refers to the financial resources and initiatives, that seek to support mitigation and adaptation measures to tackle the challenges of climate change.

In Singapore's context, besides greening the financing sector, the Singapore Government has taken active steps to drive long-term effective climate action, involving multiple stakeholders from financial institutions to non-financial partners.

The programme features the financing mechanisms available to support climate change projects and sustainable infrastructure development, as well as shares Singapore's active measures in various areas to build a climate-resilient future.

Synopsis

Topics to be covered include:

- United Nations Framework Convention on Climate Change (UNFCCC) and recent developments in green climate financing;
- Global and regional climate financing sources, including public-private climate finance instruments;
- Improve on Sustainability-Related Financial Reporting;
- Challenges of implementing and financing green projects; and
- Catalyse green investments through public policies in Singapore
