About the Organizer	<p>Hunan Children's Hospital is a comprehensive and specialized children's hospital which integrates clinical, scientific research and teaching. It became the first batch of Third Grade Class A hospital in China upon comprehensive review in 1995 and passed two certifications of ISO9001 International Standard for Quality Management System and ISO14001 Environment Management System in 2004.</p> <p>From 2013 to 2015, the international management standard of US JCI was fully implemented in the Hospital. Driven by internationalization and innovation, the Hospital has strengthened cooperation and exchange with an open and positive attitude, established an independent Foreign Affairs Management Department. It is the Key International Pediatric Medical Center approved by Hunan Provincial Health Commission. As the only Foreign-aid Paediatric Medical Training Unit in China, the Hospital is the China-aid Medical Training Base in Hunan Province, and training base for Maternal & Child health for Belt and Road countries. Since 2006, 88 China aid training projects have been carried out, with over 2,600 trainees from more than 100 countries and regions. The training includes over 10 topics such as paediatric severe disease, neonatal medicine, paediatric care technology, maternal and child health care, laboratory techniques, traditional Chinese medicine and hospital management. English, French, Portuguese, Russian and other languages are used for teaching.</p> <p>In 2016, the Hospital undertook two China-aid innovative projects of Maternal and Infant Health Project in Sierra Leone and Cambodia. The Projects aimed at offering paediatric appropriate technologies to 200 local medical workers, ward rounds and free consultation for over 200 local children. In 2017 and 2018, the Hospital sent medical experts to Zanzibar and Fiji to organize overseas training projects on hospital management, paediatric appropriate techniques and paediatric care. It has won praise from Ministry of Health of Zanzibar and Fiji and the local Chinese Embassies. The training project has turned out to successes with good social benefits and international impact, which was given follow-up reports by Hunan Daily, Health Daily, China Daily and local media.</p> <p>To facilitate the teaching of foreign-aid human resources development project, the Hospital has set up its own teacher team, for which the hospital experts and professors have been selected according to classification of professional characteristics, personal expertise, comprehensive management talents and technical personnel, including 3 experts who are awarded with Special Allowance of the State's Council, 20 experts taking positions in National Professional Committees, 30 experts taking positions in Provincial Professional Committees, and more than 100 teachers who have worked or studied abroad.</p> <p>, we appointed the foreign aid training teachers from elite and outstanding experts of the Province's medical and health system so as to constantly expand the teaching staff team, among them are former health officials stationed in WHO, medical and health policy experts, medical reform experts, disease prevention and control experts, maternal and child health experts, paediatrics expert, nursing experts, laboratory medicine experts, traditional Chinese medicine experts and so on.</p> <p>The Hospital attaches great importance to cultivate international talents. There are 20</p>	

	<p>staff including doctors, nurses, drugs and technicians created a "international medical simultaneous interpretation team" of more than, which provides a good translation guarantee for medical foreign aid teaching. The Hospital has created a good atmosphere of foreign language learning, such as regularly publishing the English internal publication Pediatrics and Adolescent Medicine, ward rounds in English language, English corner activities and English training, etc. In 2017, the Hospital organized translation training which improves the professional level of translators.</p> <p>In addition, to ensure that quality of translation and the effect of the teaching, the International Cooperation And Exchange Department organized the trainees and teachers to carry out the training, lecturers and the translators are required to pass the test in batch, and the translation of the courseware must be examined and proofread before they are used for the class formally. The hospital also specially organized the English teaching competition and other activities to promote the progress of the teaching ability.</p> <p>With the deepening of international cooperation among hospitals, the Hospitals actively responded to the "Belt and Road Initiative" and led the establishment of the "Child Health Cooperation Network of Developing Countries" aimed at improving management of medical services, enhancing exchange and cooperation in the field of medical specialty and technology, improving high-quality personnel training and scientific research cooperation in pediatrics related fields and enhancing the medical service ability and medical service management level of China and developing countries.</p>
<p>Course Content</p>	<p>Commissioned by the Ministry of Commerce of the P. R.C., Seminar on development and management of service outsourcing for developing countries will be held by Hunan International Business Vocational College. Major topics, such as China's basic national conditions, the development trend of international economy and trade, development and creation of service outsourcing for developing countries, current condition and tendency of China service outsourcing, case analysis of service outsourcing decision-making, function and role of government in developing service outsourcing, talent strategy in the enterprises of service outsourcing.etc. Will be given. Besides, through close combination with current affairs, we will share the experience of fighting Covid-19 and poverty alleviation with all participants.</p> <p>Participants will have the chance to visit national economic park and outstanding enterprises online which could help participants to know the condition of China’ s economic development better. Meanwhile, in participants’ spare time, they will be organized to visit some historical sites of Changsha city online, so that participants would better understand Chinese history and culture.</p> <p>In short, participants could better know China through the teaching model of theory with practice, and improve their level of service outsourcing as well. In addition, this seminar will promote economic exchanges and cooperation between China and other developing countries.</p>
